Judy,

The electronic copy will come directly from the NRC or their contractor since they will be sent Friday and may not be delivered by our email system 'till after working hours. I will add Carol's name to the email list of who they should send it to.

Carol – you will likely get all the sections not just the water resource sections. Obviously, I don't expect you to look at all of it. As noted below, I am out of the office all next week. Since we need to have comments back to the NRC by Friday 8/16, I would like your comments by Wednesday, 8/14, afternoon. IF there are big issues, I need to know as soon as possible (Monday 8/12). Thanks.

Lisa, Carol is back in the office at least for some portion today and the rest of the week. If she can get copies today – that would be helpful.

Carol,

I was not sure if you are back in the office and up to full work load. Hope you healing is going well.

The Dewey Burdock preliminary final chapters that will include water resource sections will be sent to us this Friday. **We only have a two week review period** so this is quick turnaround. Since I am out all next week, I am planning to have the emails with the sections sent directly to any associate reviewers who may be involved. I believe that you were involved in reviewing the draft EIS. Will you also be the point of contact for the quick review of water resource preliminary final sections?
